

**HUNTINGTON BEACH UNION HIGH SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

MICHAEL H. SIMONS

AGE: 59

OCCUPATION: Governing Board Member-Podiatrist

The children of our communities and their education are my highest priority. I am an educational leader who is student centered and experienced.

I have lived and worked in Huntington Beach for 34 years and have had three children graduate from the HBUHSD and one in middle school, I use my background in podiatric medicine and my M. S. in education to train student doctors.

During my tenure on the HBUUSD there have been continued increases in student SAT and AP test scores, more scholarships awarded and greater numbers of students going to universities or community colleges. Our parent surveys indicate over 90% are satisfied with their student's education and feel their children are safe in our schools.

During the next four years I want to ensure that the recently approved Measure C funds are utilized in a fiscally responsible, vigilant manner to repair and renovate our facilities to prepare our students for the challenges of the 21st century.

I want to increase teacher accountability and reduce class size so that our kids receive the best education possible.

Education and civic leaders have endorsed me. Make your vote count by voting for a proven student advocate: Dr. Michael Simons. Questions?
